

## New Builds

As a company ANT have been involved with Superyachts for over two decades and the following list details many of our projects. It also shows the diverse range of yards we have worked with and the increasing size of Superyacht projects we have been involved in. There are few companies in the marine market, and particularly in the technology integration sector, who have such an impressive pedigree.

Delivery	Yacht	Length	Yard	Scope
2008	Dilbar	110m	Lurssen	 
2008	Maraya	54m	CRN	 
2008	Mayan Queen	92m	Blohm & Voss	  
2008	Steel	54m	Pendennis	  
2008	Addiction	52m	Amels

1997	Teddy 1 (now Tzarina)	49m	Amels	 
1990	Sea Eagle	34m	Hakvoort	  

## Refits

As well as working on high profile new builds, ANT have delivered a number of leading edge refits. Some owners have been so impressed with ANT's original equipment a number of them have asked us to also carry out their subsequent updating or renewal work a number of years later. Our involvement in refits covers all four of our product categories. However, not all these projects require all of these products. ANT can be as involved in your refit as you need us to be.

Key	Yacht	Scope
 <p>Entertainment Systems</p> <p>High Definition audio visual, IPTV, on demand music and video, satellite TV and touch screen control.</p>	Boadicea	 
	Callisto
