

COMMUNICATIONS DIVISION

A Portfolio of Products and Services

ANT offers end users a portfolio of products and services which allows them to manage their on board equipment and services more effectively and efficiently.

Voice + Data Communication

In today's fast moving world voice communication is essential. Whether you use satellite systems or more traditional land-based methods, ANT can provide, update and maintain systems, SIM cards and handsets.

Satellite Television

For those with existing satellite TV receivers we provide viewing cards for Europe, the Middle East, America, Asia and Australasia. For those wishing to update or change providers we will install and set-up satellite TV systems including regional interchangeability.

IT Services

We can provide Internet, network, storage and software updates as well as system maintenance and disaster recovery.

Servicing + Technical Assistance

Our engineers can service all your Satellite TV, IT, audio-visual, voice communication, navigation and on-board electronics equipment.

Newspapers

We can deliver your daily "favourite" in its original format to you via satellite. Choose from over 500 worldwide titles.
